We've Got You Covered.

We are both a manufacturer and a wholesaler of office furniture. Because we are both, we are uniquely placed to help support your growth in the office interiors sector.

Our warehouses allow us to keep over 11,000 stocked items ready for your customers, and our large scale manufacturing capabilities means we can make what you want, when you want it – and no later.

*Supporting
Dealers
Since 1967.*

We're Not Going Anywhere.

You're In Good Hands.

We weren't born yesterday – we have been a family-owned, proudly Liverpool-based company since 1967.

We are here to serve you, and to share with you our wisdom that has been passed down through the decades, feeding a wealth of industry experience that has fuelled growth and success over many years.

We Set The Bar High.

We're committed to excellence in every aspect of our business, and regularly take on external assessments and certifications in order to ensure we're doing it right.

This includes rigorous testing of our products and procedures to make sure they meet the highest standards.

FSC® certified products available on request

We're The Manufacturer.

Dams boasts one of the largest and most highly automated office furniture factories in Europe, manufacturing our wooden furniture products right here in the UK. This provides you with unparalleled flexibility to respond swiftly to demand, combined with an unparalleled depth of range.

These quality-assured products can be traced all the way back to their roots. Certifications from industry-leading organisations, including FISP and FSC, provide your customers with reassurance of our commitment to being a sustainable manufacturer.

We Also Wholesale.

As a wholesaler, we scour the globe so you don't have to, strengthening our portfolio with the best products that the world has to offer.

We work with selected partners to ensure consistent quality, reliability and stock availability, and we use innovative software to work together seamlessly and efficiently.

We're proud of what we do.

We Come To You, Or Come To Us.

We can deliver to your warehouse twice a week, with no minimum order value and no delivery charge. Take advantage of a late 4pm cut-off time, established to ensure you can offer your customer a quick, reliable delivery service - no matter where you are based in the UK.

If you don't have a warehouse, you can arrange to collect from one of the seven strategically located collection centres we have across the UK.

re.think.

Like many, we are hot on sustainability. Unlike many, we provide a complete, sustainable waste management service on top of everything else

Through re.think, we recycle or reuse both waste packaging and old office furniture, regardless if it belonged to us originally - because we don't want to just reduce our own carbon footprint, but yours too.

Re.think provides our customers with an easy-to-access, hassle-free, and low-cost way to dispose of waste; we handle collection, processing, and sustainable disposal, so –our dealers' hands can be free to handle everything else.

We Go The Extra Mile.

Dams is leading the pack in end user deliveries.

Our “2-Person Delivery” service offers a 2-4 day lead time – however, if you are looking for a next-day delivery, or delivery on a specific day, we offer a “Premium 2-Person Delivery” service.

Both delivery services are carried out by a dedicated 2-person delivery team, direct to your customer’s room of choice. The deliveries are pre-booked and include a 1-hour pre call.

If you are looking for a simple solution, our “Express Delivery” is a drop-ship service, where goods are placed appropriately at your customer’s kerb side.

Our Premium Service has a later cut-off of 3pm, and 4pm for our Express Service – for maximum convenience.

For even more convenience, we can also support your customers with a full furniture recycling service of old unwanted furniture.

We Do The Heavy Lifting.

Give your customers the red-carpet treatment by offering a complete, white-glove end user installation service.

We can offer a 5-7 day “White Glove Install” service or, for those installations that require perfect timing, you can upgrade to a “Premium White Glove Install” and simply name your day (from 48 hours following order receipt).

Our expert installation teams are intricately trained to install and set out your

customers new office furniture, with the utmost care and attention.

For larger installations, take advantage of our internal project management team, who can coordinate everything from a site survey and risk assessment to overseeing the final installation details.

We Bring You Innovation By Design.

Combining the expertise of our in-house team of designers and a selection of external designers around the globe, we develop innovative new products every year.

The crucial aspects of quality, sustainability, and ergonomics are intricately balanced with the latest trends in design and workplace culture, to create products perfect for any space, anywhere.

We Design Inspiring Spaces.

We'll do more than just provide your furniture – our expert in-house team of interior designers will bring your space to life.

Utilising current, high-end space planning software, and incorporating our in depth knowledge of workplace trends, the team can create your customer's dream interior.

We Help You Sell More.

We get it, selling yourself can be hard.

That's why we provide a comprehensive library of marketing literature, both digital and print, that you can put your own stamp on. This library contains annual furniture guides, 16-page 6-monthly specialised focus catalogues, quarterly flyers, as well as 100s of product flyers for you to personalise and take home – no library card required.

Knowledge is power, and there's no better power source than our online customer portal, MyDams. As our partner, you have an all-access pass to stock checks, quotation tools, marketing materials, order updates, data files, and much much more – 24/7, 365 days a year (366 on leap years).

We'll Make Your Life A Whole Lot Easier.

To provide the best service and make your business lives easier, we have partnered with the world's leading providers of office product software.

Our enhanced, industry-leading data is created for easy access, to support your sales. Browse over 11,000 products and prices, receive up-to-date stock feeds, and place and acknowledge orders via EDI.

SIT-STAND DESKING

The ability to sit and stand during the average working day has huge health benefits to the user, helping to burn calories, boost energy levels, improve posture and promote mental well-being.

In addition to the numerous health benefits provided by periodic standing, studies show that Elev8² height adjustable desks promote creativity, team interaction, collaboration, and the willingness to share ideas.

Create a healthier work environment

Many employers are now providing workers with height adjustable desks, allowing workers to alternate between sitting and standing throughout the day. Sit-stand desks have a height adjustable feature so that you can stand or sit comfortably and work proficiently. They come in all shapes and sizes, just like people, and are suitable for any employee and work environment – in the office or at home – with a design based on exhaustive ergonomic research to provide an optimal workstation.

Why opt for a sit-stand solution?

Are you sitting comfortably? You might not be by the time you finish reading this, because spending too much time perched on your posterior could be seriously damaging your health. Put simply, a healthier workforce is a happier, more motivated and more productive workforce.

3 part leg Black, Silver or White			2 part leg Silver or White
Single and back-to-back desks			Single desks
Twin motors per desk			Single motor per desk
Control unit			Control unit

Studies also show that Elev8 sit-stand desks promote creativity, team interaction, collaboration, and the willingness to share ideas. So, when it comes to the Elev8 range, a desk is much more than a place to work - it's a working culture that benefits both the employee and the company.

ADAPT

BENCH DESK SYSTEM

Adapt is our vision for systems furniture in the contemporary office. Offering a flexible approach to office furniture design, it is perfect for matching desking with meeting tables and even executive desk design for the totally integrated look.

Sleek and stylish with clean cut lines and balanced proportions, the Adapt benching solution is a real stand out in the modern office environment.

- Horizontal and vertical cable management solutions available

Please add frame finish followed by desktop finish when ordering eg. STE1616 with White frame in White/Oak = STE1616-WH-WO

Start simple then Adapt easily!

Step 1

Select a starter unit which can be single desk or back-to-back desks. Choose your add-on unit in the same width, depth and finish as the starter unit

Please note:

Don't mix 600mm deep desks with 800mm deep desks, and don't mix 1200mm deep with 1600mm deep back-to-back desk clusters. You can't mix fixed tops and sliding top desks.

Step 2

Remove one set of legs from the starter unit and add to the end of the add-on unit

Step 3

Connect the add-on unit to the starter unit. Simply repeat the process and connect more add-on units to create runs of desks

Beam

Steel legs and framework for enhanced strength and stability

Manages all the cables from the desk to the floor, with a front panel that can be removed quickly and easily to gain access to wires

Mass cable riser

FUZE

STYLISH BENCH DESKING

Increasingly, businesses are moving away from dedicated single employee workspaces, towards more flexible working environments, and bench desk systems are the ideal solution for high density open plan workplaces.

Fuze bench desks blend the best of European design with the highest workmanship standards to span a wide range of applications and support the most creative of workspaces.

CONNEX II

MODULAR BENCH DESKING

Connex II bench desking is based on one principle – simplicity. With its clean lines and elegant form, Connex II offers a choice of classic tried and tested configurations from a single desk to hundreds of workstations in a wide variety of sizes to fit any office space.

The legs can be shared between bench clusters, which not only look aesthetically pleasing, but save space and decrease costs. New scalloped tops ease the fitting of desk accessories.

TR10

MULTI-FUNCTIONAL DESKING

With its strong lines and elegant form, TR10 is a streamlined desking system built for demanding work places and is a popular choice for a wide range of projects.

The cable managed cantilever leg design allows users to hide and store unsightly cables, keeping them off the ground where they could create trip hazards and making the desk area both safe and aesthetically pleasing.

Contract 25 is the perfect entry into 25mm desking, featuring a variety of sizes, shapes, and storage solutions for any work style or office arrangement.

DESKS

ANSON

EXECUTIVE OFFICE

Anson is a premium executive range that reflects a leader's demand for an elevated aesthetic, whether in a managers office or boardroom setting.

The desks provide plenty of worktop space and are available in a choice of two-tone designer leg frames or with a panel end profile, with a matching pedestal and cupboards that offer all important storage space and the collection is completed by meeting and boardroom tables that lend itself to decision making at the highest level.

A modern office interior with a stone wall, a desk with a keyboard and phone, and a large steel storage cabinet. The scene is overlaid with a semi-transparent teal filter. The storage cabinet is a large, light-colored unit with multiple drawers and open shelving. The desk in the foreground has a keyboard and a coiled telephone cord. The background shows a window and a brick wall.

Fabrics | Compatibility / Range

Fabrics specified for their acoustic properties are ideal for wall coverings, suspended ceiling panels, desk mounted or free standing screens. The job of the fabric is to allow sound to pass through cleanly, or provide a degree of absorbency, which allows the specialist acoustic system behind to do what it needs to do.

Slide-on desk dividing screens in orange or silver grey acoustic PET help to define boundaries and reduce the spread of airborne diseases. They clip onto desktops, creating personal distance without needing to reconfigure spaces. The pitched shape creates a dynamic aesthetic.

Can clip under the desk when not in use

Frameless design which is easy to attach and slide on to any desk or table

Slide-on dividers can easily be moved to compliment the needs of the agile workspace

Perfect to provide privacy, acoustic properties and a touch of style to your workstation

Acoustic divider manufactured using a minimum of 65% already recycled waste material

OTTO

METAL FRAMED TABLES & BENCHES

The Otto table and bench system offers a clever meeting space solution for any office breakout space with its hard-wearing table top and classic leg design. The table and bench combination avoids a mismatched look and adds a consistent look and feel to any space, and if you wish to enhance the look of the bench by including a touch of colour, fabric seat pads can be added to make them more comfortable.

CIRCULAR PEDESTAL BASE TABLES

Classic, contemporary and refined are the words most often used to describe the Monza range. Tables are available in coffee and poseur table formats as well as standard height meeting or dining tables. With its slim profile base and tubular column, Monza has a timeless design that never goes out of style, and the choice of circular, square or rectangular tops allows for customisation of design and function.

STOCKED RANGES

“Over 270 seating products in stock and available for immediate express delivery”

MTO RANGES

*“Manufactured and upholstered to specification,
from unlimited number of fabrics. A solution for
all aspects of the workplace”*

Are you sitting comfortably?

Selecting the right office chair does not have to be complicated. The key points to remember when choosing office chairs are, how long are the chairs are being used for and what activity will the user be doing while using the chair.

Head rest

Comfort and support option for performance chairs

Back rest

Allow the spinal column to follow the natural 'S' shape

Lumbar support

Adjusts to support the lower back and spine

Arm rests

Provide support for the upper body and therefore reduce the stress on the users shoulders and back

Seat height

Allow for your feet to be firmly on the floor when seated. The seat height should be just below the knee cap when standing

Chair base

5 star base to support the chair with weight loaded castors

Castors

To allow the chair to move freely on all surfaces

Setting up your workstation

The first step in setting up an office chair is to establish the desired height of the individual's desk or workstation. This decision is determined primarily by the type of work to be done and by the height of the person using the office chair.

✓ Correct Posture

1. Head

Keep your head upright and over your shoulder

2. Eyes

Look slightly downward (30° range from horizontal line of sight) without bending from the neck

3. Back

Your back should be supported by the backrest of the chair that promotes the natural curve of the spine

4. Arms

Elbows should be bent at 90°, forearms horizontal. Shoulders should be relaxed but not depressed

5. Legs

Thighs horizontal with a 90° -110° angle at the hip

6. Feet

Keep your feet fully supported on the floor. If this isn't possible, then the feet should be fully supported by a footrest

✗ Incorrect Posture

Chair Features & Benefits

The application of ergonomics in your workplace will make the environment more comfortable for all employees, boosting productivity and reducing stress – something that serves both the employer and employees alike.

Tilting

Knee tilt adjustment

Seat and back move backwards in tandem, lockable in various positions.

Standard tilt lock

Seat and back move backwards in tandem, lockable in upright position only.

Locking tilt lock

Seat and back move backwards in tandem, lockable in any position.

Independent seat tilt

Allows the seat to be independently tilted forwards and backwards.

Tilt rocker

Allows the back to be independently tilted forwards and backwards.

Synchro seat & back tilt

Seat and back move in a synchronised motion. Lockable in multiple positions.

Mechanisms

Gas lift adjustment

Raises and lowers the height of the seat to fit the user.

Back height adjustment

Allows the seat back to be higher and lowered to suit.

Back rake adjustment

Independent back tilt control. Lockable in multiple positions.

Weight tension control

Adjustable to the users weight for controlled smooth reclining action.

Seat depth adjustment

Seat slides forwards and backwards to match the users size.

Back Support

Lumbar support

Offers additional support to the lower back.

Adjustable lumbar support

Manual lumbar adjustment to support the back where needed.

Adjustable Lumbar pump

Adjust the back position easily with pump action to support the back.

Arms

Fixed loop

Loop arms fixed in position to provide support for the body.

Height adjustable

Arms adjust in height. Lockable in multiple positions.

Pivot

Arms can be pivoted back and forth for clear access.

Adjustable folding

Arms adjust in height and can be folded back when not required.

Adjustable 3D

Arms adjust in height, front & back, and left & right positions.

Adjustable 4D

Arms adjust in height, front & back, and left & right positions in addition to moving in and out to suit.

Writing tablet

Arm comes complete with a writing tablet which can be adjusted for writing or reading or put down.

 Soft PU arm pad

Ergonomic design to improve posture to ensure perfect alignment of the spine, hips and shoulders, reducing the pressure on the lumbar and coccyx areas

Avoid unnecessary pressure on the spine

Thorax support
Your thoracic spine consists of 12 vertebrae, T1 to T12

Lumbar support
Lower back region of your spinal column or backbone, L1 to L5

Coccyx area
Coccyx option reduces pressure on your coccyx

Optional extras

Please select the required options from the order form

Coccyx cut out £65

Coccyx cut out reduces the pressure applied to the coccyx at the base of the spine while seated. The foam in the area has been replaced with a lower density to relieve pain.

Air release seat £100

For a softer seat release the self inflating air from the seat pad

Inflatable thorax £35

Inflatable thorax supports the spine in the upper back region through ensuring the gap between the thoracic part of the spine and the back is filled.

Inflatable lumbar £35

Inflatable lumbar provides support to the lower back and promotes good ergonomic posture. Inflating the internal lumbar reduces strain on the spine.

Base £45

Polished 5 star base

TEGAN

TASK SEATING

Tegan is an ergonomic and sophisticated seating solution that provides exceptional comfort throughout the working day, whether you are located in the main office or a meeting room. Tegan offers a breathable mesh or fully upholstered back option as an operator chair, 4 leg meeting chair or cantilever frame visitors chair, all with a contoured padded seat and an infinite variety of fabrics to suit every design direction.

LACEY

MULTI-PURPOSE

A versatile sleek chair designed for the modern workplace, a great addition to meeting rooms, collaborative areas, and focused spaces. The combination of a light external shell with supportive mesh back, integral arms and an upholstered waterfall fronted seat pad, ensure that Lacey provides on both style and substance.

Functionality, ergonomics, and comfort are the key benefits of the chair, ensuring that the user can work to the best of their ability. Using three different base options to transform from a traditional meeting chair to a 'light' task chair.

CONFIGURABLE SEATING

5 Product warranty

 Designed & manufactured

The Encore2 Modular is as reconfigurable as it is versatile and can be grouped together to create large landscape configurations which are ideal for meetings and reception areas, or to be used as stand-alone pieces. The quality construction and high traffic design deliver an endless array of configurations and the high back units offer comfort and privacy where people can work, team up or gather.

MFC & FABRIC

TEXTURES & TEXTILES

Wood Finishes

We only use FSC-certified wood when manufacturing our products in-house in the UK, with total traceability for every order. Constructed from a chipboard core and finished with a decorative melamine covering, MFC is a versatile product ideal for use with office furniture.

MFC

MFC or Melamine Faced Chipboard is melamine resin impregnated paper bonded both sides on to a chipboard core. MFC can be used to create very modern looking furniture for the home or the office with its printed wood grain on a melamine film that forms the face of the board, with environmentally friendly ABS edging to match the decorative paper top making it very resilient and hardwearing.

MFC & FABRIC

We have committed to stocking a range of 12 best-selling fabrics and 2 vinyls, which will allow us to offer customers an even faster turnaround across the seating range and tailor seating choices to customers' individual specifications.

This colourful selection of fabric colours in the Camira Xtreme, Inloom Bondai and Fresh Vinyl ranges can bring the corporate palette into the office interior, creating a cohesive look or even zone different areas.

Sustainable fabrics

Sustainability is a key priority for us and we are committed to working closely with suppliers who share the same commitment, offering fabric ranges which allow for sustainable choices to be made and can be recycled at the end of life. Our selection processes factor in environmental concerns, quality standards and social responsibility.

Our fabric offering includes ranges made with recycled PET bottles, including bottles from sea waste. The bottles are sent to a recycling factory, where they are shredded into flakes, processed into chips and then extruded into filaments. This is then turned into yarn ready for weaving.

- **Oceanic** from **Camira** is part of the SEAQUAL Initiative, designed to combat marine plastic pollution and achieve a waste free environment. Oceanic is woven from yarn containing sea waste and each metre contains the equivalent of 26 plastic bottles, playing an important part in reducing the waste that reaches both our landfills and our oceans.

- **Sealife** from **Inloom** is a cross-functional yarn created entirely from post-consumer recycled plastics, woven from a blend of 50% SEQUAL yarn created from plastics collected from the oceans and beaches, and 50% recycled polyester yarn created from recycled PET bottles from land waste. For every 50M roll of Sealife produced, 12kg of marine litter is removed from our oceans.

- **Earthly** from **Chieftain** - is a luxurious fabric is made from 100% recycled fibres and is cradle to cradle certified. It is manufactured entirely from waste textiles. Textiles which may otherwise have gone to landfill. All the recycled yarns (100% recycled cotton and polyester) used in its creation are certified to the Global Recycled Standard. The GRS is internationally recognised, widely understood, trusted, and respected by consumers. It verifies the recycled content of products in every step of the value chain through third-party certification.

- **VerdEco** from **Agua** – is their first sustainable fabric. It's crafted entirely from preconsumer textile waste otherwise destined for landfill, which is then recycled into granules, spun into yarn, and finally re-woven; this is all done using zero water (in fact, upholstering a three-seat sofa in VerdEco saves on average 250 litres of the stuff).

- **Renewed** loop from **Gabriel** – is designed to eliminate waste. The waste age calls for pioneering solutions and innovative design that address the challenges of textile waste. As we all enter a new era of recycling, it is time to leave the throwaway culture behind, embrace waste as a valuable resource, and develop new ways to recycle materials again and again.

The quest to reduce textile waste and save resources, Gabriel have found a way to close the loop and transform textile waste into new textile products. Loop is a revolutionary take-back system, and a new category of products based on recycled textile waste – also called textile-to-textile recycling.

By recycling waste into new textiles that can be recycled again and again, creating a circular system – a closed textile loop – that reduces waste generation, conserves natural resources, and contributes to lowering CO2 emissions.

Fabric care

There are a wide choice of fabrics available and it is important that you select the right fabric for the application as well as creating the perfect finish to the chairs.

We recommend the basic principles for fabric care and maintenance continue to apply:

- Vacuum upholstery regularly to remove dust, dirt and crumbs
- Attend to stains quickly with a damp cloth
- Use branded upholstery shampoo for specific stains
- Periodically use specialist cleaning services eg dry cleaning

Most fabrics are bleach cleanable with a 10% bleach chlorine solution (which will kill Coronavirus germs). There are also an increasing number of fabrics that are anti-microbial to protect against a wide range of bacteria which cause infection - such as MRSA, Salmonella and E.coli - which can cause serious additional ill health that must be avoided by anyone already battling a potentially lethal virus infection.

These fabrics can provide hygiene benefits in wide ranging commercial end-use areas, including healthcare, hospitality, education and contract office.

For further details contact our sales team or refer to the fabric manufacturer websites.

Fabric restrictions

Certain soft seating fabrics listed in this guide may not be suitable for use on all soft seating products. We reserve the right to reject orders to make products in selected fabrics if we believe that the fabric is inappropriate for use due to 'fit and form' unsuitability. In this instance we will always recommend a similar fabric that is more suitable for use on that particular product.

Fabric hazard ratings

Low - EN1021 Parts 1 & 2 cigarette and match
Medium - BS5852 Ignition source 5 / Crib 5

Fabric bands

Please contact our sales team for a price if your preferred fabric choice is not listed. Please make sure you check the suitability of a fabric before recommending a product. If two fabrics are used on one item e.g. two-tone, the cost is calculated on higher of the two fabric bands. All orders for leather are priced on application.

Fabric colour variations

Whilst every effort is made, no guarantees are made against the minor variations in the colour of commercial fabrics. All striped fabric will be upholstered vertically unless advised.

Photographed upholstery

While every effort is made to represent colours accurately, we cannot guarantee the colours you see exactly match the colours of the actual fabric due to printing processes.

Measurements

All measurements are in millimeters and can have a tolerance of ± 12 mm on all soft seating. Measurements may vary depending on components used and we reserve the right to change them from time to time.

Customers own fabrics

Fabrics not listed or customer supplied fabrics need to be approved before acceptance of orders. A pattern charge may apply to some fabrics. We reserve the right to reject fabric that we believe to be unsuitable for the product. We are unable to guarantee any product or fabric supplied by a customer meets fire regulations or standards.

Please contact our sales team if you would like any fabric samples sent out to you.

Ordering

For all made-to-order products, it is our policy that once these products have been ordered they cannot be canceled or amended.

Pricing

All prices shown are in sterling (£) and are subject to current rate of VAT.

Warranty

All products are guaranteed against manufacturing defects, except for upholstery, castors and mechanisms which are subject to usage related wear and tear. The warranty is effective from the day the product leaves the factory and the supplier reserves the right not to apply the warranty in cases of inappropriate use or when a product has been tampered with by a third party or interventions by non-authorized personnel. All complaints concerning the goods must be made in writing and the company shall undertake to repair any product or part of a product that proves to be faulty.
